Canpac Ranger

A versatile landing craft that provides a safe and secure work platform for any Dive and ROV project. The Canpac Ranger is a 30' aluminum landing craft that was built in B.C. With its enclosed cabin, the Ranger supports both dive and ROV operations or both simultaneously. The Ranger boasts a large open work deck, enclosed cabin, and a 400lb crane. Powered by two Yamaha outboards the Ranger can safely and efficiently transport crews to and from the job site.
