

CANPAC MARINE SERVICES INC

Canpac Ruckus

A versatile high speed landing craft that provides a safe and secure work platform for any Dive and ROV project. The Canpac Ruckus is a 34' aluminum landing craft that was built in B.C. With its custom designed interior, the Ruckus supports both dive and ROV operations or both simultaneously. The Ruckus boasts a large open work deck, enclosed cabin, and a 1500lb crane. Powered by two Yamaha 250hp outboards the Ruckus can safely and efficiently transport crews to and from the job site.
